English cads rakes and bounders.. Let me explain:
So you start the game by choosing 1 of 4 generic characters which amounts to little more than a colored token on the board.. Functionally this is similar to monopoly
The design however seems to be attempting to fix the random nature of needing to land on a specific tile.

Also the game is dumb enough to make you spin (just to waste time) even when the outcome is fixed: if an opponent played a "move one space" action on you, than your next spin will always be a one.. [ly/31N8azUMirror](http://bit.ly/31N8azUMirror)

The problem is: there is no strategy This a very simple board game and nothing more.. I enjoy board games, so for me it's a winner Great price too! I read "turn based strategy" and actually got excited; you just don't see that type of game any more so I bought it without really doing any further research.. Are you buying this for a 3 year old because you think monopoly might be too complicated for them? This might be a good game for them.. Some part of me really wants to like this game; I actually like board games and quite frankly if this were even on par with monopoly I would probably make this a positive review (since it's only a \$2 game); but right now even \$2 feels like a rip off. Action will only ever show up if you happen to have an action card (picked up at random from landing on one of the draw card spaces).. Why waste the time spinning? Just move me and get on with it You move around the board buying up properties.. I'm struggling to figure out who this was designed for Are you 90 years old and barely able to push 1 button to play? This might be the game for you.. You spin a wheel instead of dice; but even with 2 digits on the wheel the highest move you can make is 6.. Beware, though, Aunt Edna's estranged husband, the Brigadier, is lurking about- and he's very, very angry.. The second wheel might as well not exist since there are only 7 outcomes: numbers 1 through 6 or action.. Old Aunt Edna has died leaving a fortune to be claimed The money will go to the one rascal who can play the dirtiest tricks and earn the most money in business dealings.. I've been playing for about 2 hours now Honestly I'm looking for some redeeming quality to it. ae05505a44 [suara walet thailand mp3 song](#)
