Please, remember, that fatal error isn't related to waste overflow and it could not be reset by software.
If you experience communication errors or do not see your printer, please, try the following:

1. Shutdown the printer and restart your computer.
2. Make sure that your USB cable or network connection is of the good quality.
3. Disable `printer status monitor` and `my Epson portal` via printing preferences or task manager. [\[Click here to find out how\]](#)
4. Cancel all printer jobs and disable any applications that can communicate with the printer.
5. Start the printer, wait until initialization sequence is finished, then repeat desired operation.
